Features

- **Engine**

Power increase to 442 hp through:

New performance exhaust system (available in 2 different sound levels). The result is a power increase of 16 kW (22 hp) and a 20 Nm (15 ft-lb) increase in torque. A deep sonorous tone and a weight reduction of 8 kg (18 lb) are additional benefits of this stainless steel exhaust system.

Optional: New high-flow catalytic converters. Special trimetal-coated catalytic converters are employed, ensuring that full OBD2 compliance is retained.

- **Sport wheels**

New wheel design: 20 in. sport wheel set – front : 235/30 20, rear : 305/25 20, high-strength forged wheel centers with polished stainless steel outer rims and high-strength aluminium inner rims.
